After eye contact: Rinse opened eye for several minutes under water or neutral saline solution for at least 15 minutes. Seek medical attention.
After skin contact: Take off immediately all contaminated clothing, and wash immediately with plenty of water, and with soap. If skin irritation persists seek medical attention.
After inhalation: If breathed in, move person into fresh air. If not breathing, give artificial respiration
After ingestion: Never give anything by mouth to an unconscious person. Rinse mouth with water
