

Commercial Name	Ephylife
INCI name	Glycerin & Anacardium occidentale (Cashew) extract & Triethyl citrate

## Specifications

- **Function:** Epigenetic active ingredient\_Age Eraser
- **Country of Manufacturing:** France
- **Part of the plant used:** seeds
- **Collection mode:** Plantation
- **Available form:** viscous liquid preservative free
- **Color:** Yellow to brownish
- **Odor:** characteristic
- **Incorporation rate:** 1-2%
- **Solubility:** hydrosoluble
- **pH:** 5,0-6,5
- **Cosmos ready**
- **No territorial restrictions known**

## Storage conditions and shelf life

Keep container tightly closed in dry and well-ventilated place at room temperature between 18 °C and 25°C.

We preconize to homogenize the product at at low speed before use it.

If crystallization appears during storage, put the product in an oven at about 30 °C and then homogenize the product at low speed before use it.

Shelf life: 18 months

## Formulation

### Age Eraser Cream

#### How to use:

*Solubilize Ephylife in water*

PHASES	INGREDIENTS	%
